NETGEAR® | AirCard®

AirCard® 4G LTE Signal Boosting Cradle with Ethernet

Data Sheet

DC113A

Highlights

- Boost 3G/4G signal strength
- Gigabit Ethernet port
- Plug-and-play

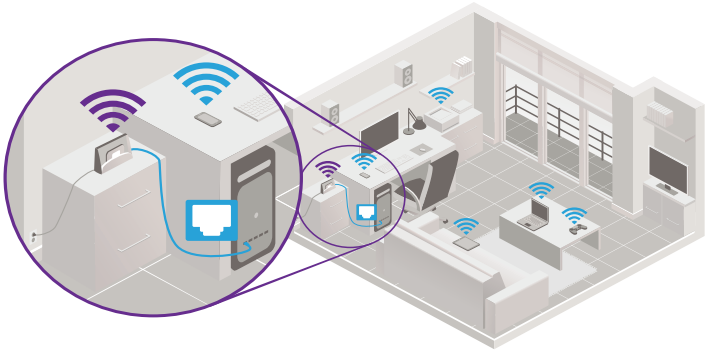
Overview

The AirCard® 4G LTE Signal Boosting Cradle with Ethernet is the perfect solution to get even more value out of your AirCard mobile hotspot†. Simply dock your mobile hotspot into the cradle to charge the battery, boost your cellular signal strength and provide high-speed network connectivity to an Ethernet device all at the same time.

Key Features

- Boost 3G/4G signal strength for increased speeds and performance
- Gigabit Ethernet port adds router functionality to your mobile hotspot
- Ethernet WAN with failover to Mobile WAN offers the reassurance of always-on connectivity
- No setup. Simply dock your AirCard mobile hotspot
- Simple, affordable and attractive cradle for storing and charging your AirCard mobile hotspot

Network Connections



Get Started in Just a Few Steps

1. Connect the charging cradle cable to the AC charger.
2. Insert the AC charger into an electrical outlet.
3. Insert your hotspot into the charging cradle.
4. Adjust the back support to accommodate your hotspot.
5. (Optional) Connect the Ethernet cable into the Ethernet port on the back of the cradle.
